Subject: Letter of recommendation for Jessica Justice

To whom it may concern,

I was delighted to be asked to write a letter of recommendation for Jessica Justice for an employment opportunity. I have known Jessica for the past three years as her professor. I had Jessica as a student in CS160 Survey of Computer Science, CS161 Intro to Java Programming 1, and CS477 Open Source Software Development. Additionally I had many interactions with Jessica for advising and career goal planning.

Jessica excelled as a student, consistently earning one of the highest grades in the courses I taught. She possesses a natural talent and, perhaps even more important, a curious nature that leads her to pursue greater knowledge. Jessica also had a great attendance rate, demonstrating her commitment to her education as well as a strong work ethic. I have a great respect for Jessica and believe she would excel in any opportunity to work in a computer science related field.

Jessica is hardworking, honorable, and a joy to work with. I recommend her without reservation for programming and computer science related jobs. You will find Jessica to be a joy to work with as she not only possess a great attitude, but also an inquisitive mind. If I can provide any further information or answer any questions, please feel free to contact me either via email, morganb@wou.edu, or phone, 971-241-8689.

Sincerely,

A handwritten signature in blue ink, appearing to be 'B. Morgan', followed by a long horizontal line extending to the right.
